

Horticulture

This moderation report covers activities for the period July - September 2023.

Since June 2022, **33 new or revised programmes have been endorsed** by Muka Tangata for use in the Horticulture industry.

Between July and September 2023, we called for **86 ākonga (learner) assessment samples** from **10 providers** delivering standards in the industry. These were desk-based moderated.

Our moderators agreed with 78% of the providers assessment judgements - this is higher than the all-of sector verification rate of 77% for this period, and signals clearly that overall, ākonga are being assessed to the industry standard.

Over this period, we have carried out onsite and online hui whakapūmau enhancement visits with **two Horticulture providers** to observe delivery and assessment of Horticulture standards.

Over the year, we facilitated **22 professional development online seminars** for providers around best practice assessment, meeting programme endorsement considerations, and te ao Māori.
