

Veterinary and Animal Care

This moderation report covers activities for the period April – June 2023.

Since June 2022, **eight new or revised programmes have been endorsed** by Muka Tangata for use in the Veterinary and Animal Care industry.

Between April and June 2023, we called for **18 ākonga (learner) assessment samples** from **two providers** delivering standards in the industry. These were desk-based moderated.

Our moderators agreed with 100% of the providers assessment judgements - this is significantly higher than the all-of sector verification rate of 70% for this period, and signals clearly that overall, ākonga are being assessed to the industry standard.

All Māori learner samples met the standard. There were many examples of good practice assessment that our moderators were able to feedback to the providers.

Over the year, we facilitated **22 professional development online seminars** for providers around best practice assessment, meeting programme endorsement considerations, and te ao Māori.
