

Agriculture General, Fencing and Agrichemicals

This moderation report covers activities for the period July-September 2024.

Agriculture General, Fencing and Agrichemicals was a moderation focus area between July and September.

Between July and September 2024, we called for **66 ākonga (learner) assessment samples** from **nine providers** delivering these pan-sector standards. These were desk-based moderated.

Our moderators agreed with 66% of the providers assessment judgements. The verification rate is higher than the previous year (50% from 30 samples) which was pleasing to see. The across all sector verification rate for the same period was 85%.

Of the 15 ākonga Māori moderated, our moderators agreed with 89% of the assessor decisions.

TEO results show six of the nine providers moderated met the moderation requirements. There were many examples of good practice assessment that our moderators were able to feedback to the provider.

Over this period, we met face to face with five providers and three schools and met with one provider and three schools online.

Interventions to improve verification rates and support providers have been in place sector wide such as hui whakapūmau provider site visit, online seminars and professional development workshops conducted face to face for individual providers.

Moderation results, positive or otherwise are discussed with the provider, and followed up with a report. Any actions for improvements are agreed with the provider and implemented.
